

Young Women and the Deepwater Horizon Disaster

Are you interested in taking part in a study to determine the effects of the Oil Spill on young women?

We are seeking 18-45 year old women to participate in our study:

The Deepwater Horizon Disaster, Lifetime Adversity, and Reproductive-Aged Women

Principal Investigator: Emily Harville, PhD

If you are:

- A woman 18-45 years of age
- English-Speaking
- Lived in this area during the Oil Spill

You may be able to participate!

You will be asked to complete:

- An interview at a time convenient for you
- A take-home questionnaire
- A blood sample at the time of your interview
- Saliva sample at the time of your interview
- A follow-up phone interview

**You will receive compensation
for your participation.**

**If you have any questions or would
like to participate, please contact:**
