

Pregnancy and the Deepwater Horizon Disaster

Are you interested in taking part in a study to determine the effects of the Oil Spill on pregnant women?

We are seeking pregnant women to participate in our study:

The Deepwater Horizon Disaster, Lifetime Adversity, and Reproductive-Aged Women

Principal Investigator: Emily Harville, PhD

If you are:

- A pregnant woman 18 years of age or older
- English Speaking
- Singleton gestation
- Lived in this area during the Oil Spill

You may be able to participate!

You will be asked to complete:

- An interview at 1 prenatal visit
- A take-home questionnaire
- A blood sample at the time of your interview
- Saliva sample at the time of your interview
- A follow-up phone interview

You will receive compensation for your participation.

If you have any questions or would like to participate, please contact:

Jayda Jones, Study Coordinator
504-453-2290 or jjones15@tulane.edu
